

# American Funds Insurance Series® - American Funds Mortgage Fund

Income

Class 4 shares

VIMF

Q4 fund fact sheet

Data as of December 31, 2025, unless otherwise noted.

**CAPITAL GROUP®** | **AMERICAN FUNDS®**

## Key information

### Objective:

The fund's investment objective is to provide current income and preservation of capital.

### Distinguishing characteristics:

Focuses on high-quality residential and commercial mortgage-backed securities that are either guaranteed or sponsored by the U.S. government. This strategy seeks to add value by actively managing sector allocation, security selection, duration and yield curve.

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Investing for short periods makes losses more likely. The variable annuities and life insurance contracts that use the series' funds contain certain fees and expenses not reflected here. Prices and returns will vary, so investors may lose money. If such fees and expenses had been deducted, results would have been lower. For results reflecting contract-level fees and expenses, contact the insurance company that issues your contract or visit its website. For current fund information and month-end results, visit [capitalgroup.com/afis](http://capitalgroup.com/afis).

## Calendar-year total returns (%)

## Investment results

Data for periods ended 12/31/2025 (%)	Cumulative total returns <sup>7,8</sup>			Average annual total returns <sup>7,9</sup>

**Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.**

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and/or summary prospectuses, which can be obtained from a financial professional and should be read carefully before investing.

This material must be preceded or accompanied by a prospectus or summary prospectus for the fund(s) being offered.

Investments in mortgage-related securities involve additional risks, such as prepayment risk.

The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds.

The return of principal for bond portfolios and for portfolios with significant underlying bond holdings is not guaranteed. Investments are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.

There have been periods when the results lagged the index(es) and/or average(s). The indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index.

Rating exposure (%)	
Fixed income	86.9
AAA/Aaa	3.3
AA/Aa	83.0
A	0.1
Unrated	0.4
Cash & equivalents <sup>6,11</sup>	13.1

Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor's, Moody's and/or Fitch, as an indication of an issuer's creditworthiness. Unless otherwise noted below, if agency ratings differ, a security will be considered to have received the highest of those ratings, consistent with applicable investment policies. Securities in the Unrated category have not been rated by any of the rating agencies referenced above; however, the investment adviser performs its own credit analysis and assigns comparable ratings that are used for compliance with applicable investment policies.

Top fixed income issuers (%) <sup>10</sup>

Bloomberg or Bloomberg's licensors own all proprietary rights in the Bloomberg Indices. Neither Bloomberg nor Bloomberg's licensors approves or endorses this material, or guarantees the accuracy or completeness of any information herein, or makes any warranty, express or implied, as to the results to be obtained therefrom and, to the maximum extent allowed by law, neither shall have any liability or responsibility for injury or damages arising in connection therewith.

All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. All other company and product names mentioned are the property of their respective companies.

Portfolios are managed, so holdings will change. Certain fixed income and/or cash and equivalents holdings may be held through mutual funds managed by the investment adviser or its affiliates that are not offered to the public.

Totals may not reconcile due to rounding.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses.

Although 4 shares, fees for distribution and/or insurance administrative services are not paid on amounts invested in the fund by the investment adviser and/or its affiliates. If fees for these services were charged on these assets, fund results would have been lower and expenses would have been higher. When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower and net expenses higher. For more information on fee waivers and expense reimbursements, visit [capitalgroup.com/afis](http://capitalgroup.com/afis).

For the American Funds Insurance Series - American Funds Mortgage Fund share class(es) listed below, the investment adviser has agreed to waive a portion of the management fee through the date(s) listed below, without which results would have been lower and net expenses higher.

- Class 4 shares (expiration: 5/1/2026)

The fund's board may elect at its discretion to extend, modify or terminate the waiver as of any noted expiration date. Please refer to the fund's most recent prospectus for details.

Certain share classes were offered after the inception dates of some funds. Results for these shares prior to the dates of first sale are hypothetical based on the original share class results without a sales charge, adjusted for typical estimated expenses.

- Class 4 shares were first offered on 12/14/2012.

Results for certain funds with an inception date after the share class inception also include hypothetical returns because those funds' shares sold after the funds' date of first offering. Please refer to each fund's most recent shareholder report or prospectus for more information on specific expenses.

1. The distribution rate reflects the fund's past dividends paid to shareholders and may differ from the fund's SEC yield which reflects the rate at which the fund is earning income on its current portfolio of securities. The distribution rate reflects fee waivers and/or expense reimbursements in effect during the period. Without waivers and/or reimbursements, it would be reduced.
2. Expense ratios are as of each fund's prospectus/characteristics statement, as applicable, available at the time of publication.
3. Asset-backed securities (ABS) "Other" may include collateralized home obligations, home equity, student loans and other uncategorized securities.
4. Sector breakdown "Other" may include equities, rights, warrants, preferreds, convertibles, forwards and FX (foreign exchange) options.
5. Includes cash, short-term securities, other assets less liabilities, and may include accrued income. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.
6. Negative weightings may result from timing differences between trade and settle dates of securities purchased by the fund.
7. When applicable, returns for less than one year are not annualized, but calculated as cumulative total returns.
8. YTD (year-to-date return): For the period from January 1 of the current year to the date shown or from inception date if first offered after January 1 of the current year.
9. Index and/or average lifetime is based on the fund inception date.
10. The information shown does not include cash and cash equivalents. This includes shares of money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.
11. Includes cash, short-term securities, other assets less liabilities, and may include accrued income. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.

American Funds Insurance Series serves as an underlying investment option for multiple insurance products, including variable annuity contracts and variable life insurance policies. Availability of funds will vary based on the insurance contract offered.

**Bloomberg U.S. Mortgage Backed Securities Index:** Bloomberg U.S. Mortgage Backed Securities Index is a market-value-weighted index that covers the mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC). This index is unmanaged, and its results include reinvested distributions but do not reflect the effect of sales charges, commissions, account fees, expenses or U.S. federal income taxes. **Bond Statistic Average Yield to Worst:** Lower of Yield to Maturity or the bond's total return if put or call options are exercised prior to maturity but no default occurs. **Bond Statistic Effective Duration in Years:** Effective duration is a duration calculation for bonds that takes into account that expected cash flows will fluctuate as interest rates change. **Distribution Rate 12-Month:** The income per share paid by the fund over the past 12 months to an investor from dividends (including any special dividends). The distribution rate is expressed as a percentage of the current price. **Yield Annualized 30-Day SEC:** The 30-day SEC yield reflects the rate at which the fund is earning income on its current portfolio of securities calculated according to the standardized SEC formula; when applicable, it reflects the maximum sales charge. If shown, a net yield reflects fee waivers and/or expense reimbursements in effect during the period. Without waivers and/or reimbursements, the yield would be reduced. Gross yield does not adjust for any fee waivers and/or expense reimbursements in effect. **Morningstar Category:** In an effort to classify funds by what they own, as well as by their prospectus objectives and styles, Morningstar developed Morningstar Categories. While the prospectus objective identifies a fund's investment goals based on the wording in the fund prospectus, the Morningstar Category identifies funds based on their actual investment styles as measured by their underlying portfolio holdings (portfolio and other statistics over the past three years).
