Quarterly statistical update

Data as of September 30, 2026, unless otherwise noted.

This update must be used (until superseded) with any American Funds, ABLEAmerica® and CollegeAmerica® sales materials that include investment results for periods ended before the date shown. As a practical matter, financial advisors should consider including this update with all American Funds, ABLEAmerica, and CollegeAmerica sales literature. This material may be photocopied. Investment results updated monthly, and daily share price information, are available at capitalgroup.com.

CollegeAmerica and ABLEAmerica are nationwide plans sponsored by Commonwealth Savers™

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Investing for short periods makes losses more likely. Prices and returns will vary, so investors may lose money. For current fund information and month-end results, visit capitalgroup.com.

Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower. Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase.

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Returns at net asset value (NAV) do not reflect the contingent deferred sales charge (CDSC) (1%) on shares sold within the first year of purchase. If the CDSC had been deducted, the results would have been lower.

Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase.

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower. Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase.

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Returns at net asset value (NAV) do not reflect the contingent deferred sales charge (CDSC) (1%) on shares sold within the first year of purchase. If the CDSC had been deducted, the results would have been lower.

Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase.

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower.

Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase.

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and/or summary prospectuses as applicable, which can be obtained from a financial professional and should be read carefully before investing. Similar information is contained in the CollegeAmerica Program Description and ABLEAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing. CollegeAmerica and ABLEAmerica are distributed by Capital Client Group, Inc., and sold through unaffiliated intermediaries.

Depending on your state of residence, there may be an in-state plan that provides state tax and other state benefits not available through CollegeAmerica (such as financial aid, scholarship funds and protection from creditors) or ABLEAmerica. Before investing in any state's 529 plan, investors should consult a tax advisor. CollegeAmerica and ABLEAmerica are nationwide plans sponsored by Commonwealth Savers.

The return of principal for bond portfolios and portfolios with significant underlying bond holdings is not guaranteed. Investments are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.

The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds.

Investing in developing markets may be subject to additional risks, such as significant currency and price fluctuations, political instability, differing securities regulations and periods of illiquidity, which are detailed in the fund's prospectus. Investments in developing markets have been more volatile than investments in developed markets, reflecting the greater uncertainties of investing in less established economies. Individuals investing in developing markets should have a long-term perspective and be able to tolerate potentially sharp declines in the value of their investments.

The value of fixed income securities may be affected by changing interest rates and changes in credit ratings of the securities.

Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds.

While not directly correlated to changes in interest rates, the values of inflation-linked bonds generally fluctuate in response to changes in real interest rates and may experience greater losses than other debt securities with similar durations.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries.

Investments in mortgage-related securities involve additional risks, such as prepayment risk.

Nondiversified funds have the ability to invest a larger percentage of assets in the securities of a smaller number of issuers than a diversified fund. As a result, poor results by a single issuer could adversely affect fund results more than if the fund invested in a larger number of issuers. See the applicable prospectus for details.

Interests in Capital Group's U.S. Government Securities portfolios are not guaranteed by the U.S. government.

Smaller company stocks entail additional risks, and they can fluctuate in price more than larger company stocks.

State-specific tax-exempt funds are more susceptible to factors adversely affecting issuers of their states' tax-exempt securities than more widely diversified municipal bond funds.

Income from municipal bonds may be subject to state or local income taxes and/or the federal alternative minimum tax. Certain other income, as well as capital gain distributions, may be taxable.

Frequent and active trading of portfolio securities may occur, which may involve correspondingly greater transaction costs, adversely affecting the results.

Allocations may not achieve investment objectives. The portfolios' risks are related to the risks of the underlying funds as described herein, in proportion to their allocations.

Although the target date portfolios are managed for investors on a projected retirement date time frame, the allocation strategy does not guarantee that investors' retirement goals will be met. Investment professionals manage the portfolio, moving it from a more growth-oriented strategy to a more income-oriented focus as the target date gets closer. The target date is the year that corresponds roughly to the year in which an investor is assumed to retire and begin taking withdrawals. Investment professionals continue to manage each portfolio for approximately 30 years after it reaches its target date. Payments consisting of return of capital will result in a decrease in an investor's fund share balance. Higher rates of withdrawal and withdrawals during declining markets may result in a more rapid decrease in an investor's fund share balance. Persistent returns of capital could ultimately result in a zero account balance. Investment professionals gradually adjust a college target date portfolio over time so that it becomes more preservation-oriented. The target date is the year that corresponds roughly to the year in which the beneficiary is expected to begin taking withdrawals. The allocation strategy does not guarantee that investors' education savings goals will be met. Investors and their financial professionals should periodically evaluate their investment to determine whether it continues to meet their needs.

American Funds U.S. Government Money Market Fund may suspend 12b-1 payments under agreements between its principal underwriter and intermediaries and other entities that sell fund shares. To the extent such payments have been suspended for a certain share class, should payments subsequently commence, the fund's investment results would be lower and expenses would be higher for that share class. Please refer to the prospectus for additional information.

Class A shares of the American Funds Multi-Income Sector Fund include seed money invested by the fund's investment adviser or its affiliates. Because 12b-1 fees are not paid on these investments, expenses are lower and results are higher than they would have been if the fees had been paid.

All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. All other company and product names mentioned are the property of their respective companies.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses.

Although American Funds Corporate Bond Fund, American Funds Inflation Linked Bond Fund (Class A); American Funds Global Balanced Fund, International Growth and Income Fund (Class R-1); and American Funds Mortgage Fund (Class R-1, R-2, R-3) have plans of distribution, fees for distribution are not paid on amounts invested in the fund by the investment adviser and/or its affiliates. If fees for these services were charged on these assets, fund results would have been lower and expenses would have been higher. When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower and net expenses higher. For more information on fee waivers and expense reimbursements, visit capitalgroup.com.

For the funds and/or share classes listed below, the investment adviser has agreed to reimburse a portion of fund expenses through the date(s) listed below, without which results would have been lower and net expenses higher.

3. The 30-day SEC yield for a fund of funds is calculated using the income earned by the fund over the past 12 months, which is then translated to a daily rate that is used to calculate the 30-day yield. The calculation for bond funds, however, reflects income earned over the past 30 days. As a result, during changing rate environments, the SEC yield for a fund of funds, whose underlying funds are primarily bond funds, may meaningfully differ from that of its underlying bond fund holdings. Yield Annualized 30-Day SEC: The 30-day SEC yield reflects the rate at which the fund is earning income on its current portfolio of securities calculated according to the standardized SEC formula; when applicable, it reflects the maximum sales charge. If shown, a net yield reflects fee waivers and/or expense reimbursements in effect during the period. Without waivers and/or reimbursements, the yield would be reduced. Gross yield does not adjust for any fee waivers and/or expense reimbursements in effect. **Yield Annualized 7-day SEC:** The 7-day SEC yield is calculated by annualizing dividends paid over the past seven days. Compared with returns, the 7-day SEC yield more accurately reflects the fund's current earnings. If shown, the net 7-day SEC yield reflects waivers/reimbursements; the gross yield does not reflect waivers/reimbursements.
