CollegeAmerica[®] Employer-sponsored program

CAPITAL | AMERICAN GROUP[®] | FUNDS[®]

Investment results as of March 31, 2024

The following information relates only to Class 529-E shares of funds offered without a sales charge to eligible participants in a CollegeAmerica employer-sponsored program.

Figures shown are past results for Class 529-E shares and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. For current information and month-end results, visit capitalgroup.com.

CollegeAmerica is a nationwide plan sponsored by **Virginia529**

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

You could lose money by investing in the money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectus, summary prospectus and CollegeAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing. CollegeAmerica is distributed by American Funds Distributors, Inc., which will be renamed Capital Client Group, Inc. on or around July 1, 2024, and sold through unaffiliated intermediaries.

Depending on your state of residence, there may be an in-state plan that provides state tax and other state benefits, such as financial aid, scholarship funds and protection from creditors, not available through CollegeAmerica. Before investing in any state's 529 plan, investors should consult a tax advisor.

The annualized seven-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. Expense ratios are as of each fund's prospectus available at the time of publication. When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower and net expenses higher. Refer to **capitalgroup.com** for more information. The investment adviser is currently waiving/reimbursing a portion of other expenses for certain funds. Net expense ratios reflect the waiver/reimbursement, without which they would have been higher. The waiver/reimbursement for these funds will be in effect through at least the following dates: American Funds Mortgage Fund and Intermediate Bond Fund of America – November 1, 2024; American High-Income Trust – December 1, 2024; American Funds Corporate Bond Fund – August 1, 2024 and American Funds International Vantage Fund – January 1, 2025. The adviser may elect at its discretion to extend, modify or terminate the waiver/reimbursement at that time. Refer to the fund's most recent prospectus for details.

Class 529-E shares were first offered on February 15, 2002. Class 529-E share results prior to the date of first sale are hypothetical based on the results of the original share class of the fund without a sales charge, adjusted for typical estimated expenses. Results for certain funds with an inception date after February 15, 2002, also include hypothetical returns because those funds' Class 529-E shares sold after the funds' date of first offering. Refer to **capitalgroup.com** for more information on specific expense adjustments and the actual dates of first sale.

Allocations may not achieve investment objectives. The portfolios' risks are related to the risks of the underlying funds as described herein, in proportion to their allocations.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility, as more fully described in the prospectus. These risks may be heightened in connection with investments in developing countries. The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings. Investments in mortgage-related securities involve additional risks, such as prepayment risk, as more fully described in the prospectus. While not directly correlated to changes in interest rates, the values of inflation linked bonds generally fluctuate in response to changes in real interest rates and may experience greater losses than other debt securities with similar durations. Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds. Small-company stocks entail additional risks, and they can fluctuate in price more than larger company stocks. The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds. As a non-diversified fund, American Funds Emerging Markets Bond Fund has the ability to invest a larger percentage of assets in securities of individual issuers than a diversified fund. As a result, a single issuer could adversely affect a fund's results more than if the fund invested a small percentage of assets in securities of that issuer. Refer to the applicable prospectus for details. American Funds Strategic Bond Fund may engage in frequent and active trading of its portfolio securities, which may involve correspondingly greater transaction costs, adversely affecting the fund's results. Fund shares of U.S. Government.

The value of fixed-income securities may be affected by changing interest rates and changes in credit ratings of the securities.

The fund may suspend 12b-1 payments under agreements between its principal underwriter and intermediaries and other entities that sell fund shares. To the extent such payments have been suspended for a certain share class, should payments subsequently commence, the fund's investment results would be lower and expenses would be higher for that share class. Refer to the prospectus for additional information.
