1 Morningstar Canada Global Equity category. Rankings are determined by Morningstar Research Inc., an independent research firm, based on categories maintained by the Canadian Investment Funds Standards Committee (CIFSC). 3 Capital Group, at its discretion, currently waives some of its management fees or absorbs some expenses of certain Capital Group funds. Such waivers and absorptions may be terminated at any time, but can be expected to continue for certain portfolios until such time as such funds are of sufficient size to reasonably absorb all management fees and expenses incurred in their operations. The management expense ratios for the portfolios are based on audited total expenses for the 12-month period ended December 31, 2021, and are expressed as an annualized percentage of daily average net assets during the period. Actual MERs may vary. Series D MER: 1.15%. For the 12-month period ended December 31, 2021, the total net asset value of Series A, Series D and Series T4 was of sufficient size to reasonably absorb all management fees and expenses incurred in the operations of the fund attributable to these series, and therefore there were no waivers or absorptions during this period.
