Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. For current information and month-end results, visit capitalgroup.com.

Returns shown at net asset value (NAV) have all distributions reinvested. If a sales charge had been deducted, the results would have been lower.
Returns shown at maximum offering price (MOP) for Class A shares reflect deduction of the 2.50% maximum sales charge.

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.
Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and summary prospectuses, which can be obtained from a financial professional and should be read carefully before investing.
This material must be preceded or accompanied by a prospectus or summary prospectus for the fund(s) being offered.
The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.
Lower-rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher-rated bonds.
Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries.
Allocations may not achieve investment objectives. The portfolios’ risks are directly related to the risks of the underlying funds.
There may have been periods when the results lagged the index(es). Certain market indexes are unmanaged and, therefore, have no expenses.
Investors cannot invest directly in an index. Results for Lipper indexes/averages do not reflect sales charges. Lipper categories are dynamic and averages may have few funds, especially over longer periods.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. Returns for one year or less are not annualized, but calculated as cumulative total returns.
When applicable, investment results reflect fee waivers and/or expense reimbursements, without which results would have been lower and net expense ratios higher if shown. This information is provided in detail in the shareholder reports. For more information on fee waivers and expense reimbursements, visit capitalgroup.com.

1Expense ratios for funds of funds are as of the most recent prospectus available at the time of publication, and include the weighted average expenses of the underlying funds.
Returns shown at net asset value (NAV) have all distributions reinvested. If a sales charge had been deducted, the results would have been lower.

American Funds Portfolio Series℠

**Objective-based:** Aligned with three broad objectives – **preservation, balance** and **appreciation** – the funds offer a structured approach with broad diversification.

**Flexible:** Designed to help investors pursue a wide range of needs and goals, the funds can be used in combination within an objective-based framework or individually, based on an investor’s time frame, risk tolerance and other factors.

**Trusted:** Each fund of funds represents a blend of individual American Funds with a proven track record and investment management process.

**Actively monitored:** An oversight committee meets regularly to review the funds’ results to keep holdings aligned with fund objectives. The committee will also determine whether the funds need to be rebalanced.

---

2The portfolio managers shown are as of each fund’s most recent prospectus at time of publication.
3The Portfolio Series funds are monitored; allocations and funds may change.
4Allocation percentages and underlying funds are subject to the oversight committee’s discretion and will evolve over time. Underlying funds may be added or removed at any time.
5YTD (year-to-date return): the net change in the value of the portfolio (in percentage terms) from January 1 of the current year to the date shown above.
6Results for certain funds with an inception date after the share class inception also include hypothetical returns because those funds’ shares sold after the funds’ date of first offering.
7Totals may not reconcile due to rounding.
8Figures are based on holdings of the underlying funds, if applicable, as of date shown.
9Cash and equivalents includes short-term securities, accrued income and other assets less liabilities. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.
10Unlike average maturity, average life includes the impact of callable bonds.
11Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor’s, Moody’s and/or Fitch, as an indication of an issuer’s creditworthiness. If agency ratings differ, the security will be considered to have received the highest of those ratings, consistent with the portfolio’s investment policies. Securities in the Unrated category have not been rated by a rating agency; however, the investment adviser performs its own credit analysis and assigns comparable ratings that are used for compliance with applicable investment policies. Bond ratings for the American Funds Portfolio Series relate to the securities held by the portfolios’ underlying mutual funds, and if agency ratings of those holdings differ, the security will be considered to have received the highest of those ratings.

**TERMS & DEFINITIONS**

Bloomberg Barclays 1-5 Year U.S. Government/Credit A+ Index: Bloomberg Barclays 1-5 Year U.S. Government/Credit A+ Index is a market-value weighted index that tracks the total return results of fixed-rate, publicly placed, dollar-denominated obligations issued by the U.S. Treasury, U.S. government agencies, quasi-federal corporations, corporate and foreign debt guarantees issued by the U.S. government, and U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity and quality requirements, with maturities of one to five years, including A-rated securities and above. This index is unmanaged, and its results include reinvested distributions but do not reflect the effect of sales charges, commissions, account fees, expenses or U.S. federal income taxes.
Lipper Short-Intermediate Investment-Grade Debt Funds: Lipper Short-Intermediate Investment Grade Debt Funds Index is an equally weighted index of funds that invest primarily in investment-grade debt issues (rated in the top four grades) with dollar-weighted average maturities of one to five years. The results of the underlying funds in the index include the reinvestment of dividends and capital gain distributions, as well as brokerage commissions paid by the funds for portfolio transactions and other fund expenses, but do not reflect the effect of sales charges, account fees or U.S. federal income taxes.
