Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Share prices and returns will vary, so investors may lose money. Investing for short periods makes losses more likely. For current information and month-end results, visit capitalgroup.com.

Returns shown at net asset value (NAV) have all distributions reinvested. If a sales charge had been deducted, the results would have been lower. Returns shown at maximum offering price (MOP) for Class A shares reflect payment of the 2.50% maximum sales charge.

American Funds Portfolio Series℠

Objective-based: Aligned with three broad objectives—preservation, balance and appreciation—the funds offer a structured approach with broad diversification.

Flexible: Designed to help investors pursue a wide range of needs and goals, the funds can be used in combination within an objective-based framework or individually, based on an investor’s time frame, risk tolerance and other factors.

Trusted: Each fund of funds represents a blend of individual American Funds with a proven track record and investment management process.

Actively monitored: An oversight committee meets regularly to review the funds’ results to keep holdings aligned with fund objectives. The committee will also determine whether the funds need to be rebalanced.

Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor’s, Moody’s and/or Fitch, as an indication of an issuer’s creditworthiness. If agency ratings differ, the security will be considered to have received the highest of those ratings, consistent with the portfolio’s investment policies. Securities in the Unrated category have not been rated by a rating agency; however, the investment adviser performs its own credit analysis and assigns comparable ratings that are used for compliance with applicable investment policies. Funds of funds’ bond ratings relate to the securities held by the portfolios’ underlying mutual funds; if agency ratings of those holdings differ, the security will be considered to have received the highest of those ratings.

2The Portfolio managers shown are as of the fund’s most recent prospectus dated 01/01/2020.
3The Portfolio Series funds are monitored; allocations and funds may change.
4Allocation percentages and underlying funds are subject to the oversight committee’s discretion and will evolve over time. Underlying funds may be added or removed at any time.
5YTD (year-to-date return): the net change in the value of the portfolio (in percentage terms) from January 1 of the current year to the date shown above.
6Results for certain funds with an inception date after the share class inception also include hypothetical returns because those funds’ shares sold after the funds’ date of first offering.
7Figures are based on holdings of the underlying funds, if applicable, as of date shown.
8Cash and equivalents includes short-term securities, accrued income and other assets less liabilities. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.
9Unlike average maturity, average life includes the impact of callable bonds.
